

**Fife Council – 2<sup>nd</sup> December, 2021**

**Administration Amendment to Motion 1**

“Council notes that H bar markings are sometimes used to advise road users of safety issues on our roads and junctions.

H bar markings are currently an advisory measure and may form part of the Transport Act provisions going forward.

Council calls for Transportation Services to bring a report to the Economy, Tourism, Strategic Planning and Transportation Sub-Committee on the pavement parking provisions in the Transport Act and the impacts on lining policy that this may bring.”
