

**Spaces for People:**  
Extended area into carriageway to allow for social distancing.

Extend into the existing carriageway by 2.2m this will increase the available footway from 1.8m to 4.0m.

This will leave a carriageway width of 3.6m.

Due to the loss of carriageway width a localized narrowing has been put in place to allow for a loading bay. Putting this adjacent to the church square means the existing footway should be wide enough to allow for additional space for pedestrians.

Bollards/barrier to be used as segregation between pedestrians and vehicles at 1.5m gap.

Ramps for Wheel Chair Access

Proposed additional Bin
