

Fife Council – 9th June, 2022

Amendment to Motion 1 – Notice of Motions

"Over 800 Fifers have tragically lost their lives over the course of the Covid Pandemic. The unveiling of the National Covid Memorial in Glasgow is a welcome step in recognising this loss and Council notes the steps being taken by others in formally recognising, at a local level, the loss of life as well as the contribution of key workers, volunteers and local communities throughout the last two years.

In recognising that the pandemic is an experience that has pulled communities together in grief as well as in appreciation; and the situation of families and communities in Fife must not be forgotten, Council notes the 'Remembering Together' National programme. Council recognises the ongoing work of an advisory group, which has met since Nov 2021, in partnership with Greenspace Scotland, and partners: OnFife, Fife Contemporary, Fife Interfaith Group and NHS Fife to commission an artist, to work with local groups, families and communities to co-create a memorial that is reflective of Fife's communities; and further notes that anticipated that the memorial project should be complete by Autumn 2023."

Proposed by Cllr Judy Hamilton

Seconded by Cllr Linda Erskine
