Glossary of Terms

Affordable Housing: housing of a reasonable quality that is affordable to people on modest incomes. It includes property for rent, sale, or shared ownership.

Adjusted Annual Housing Supply Target: where the Housing Supply Target has been assessed but must be adjusted to account for the backlog shortfall/surplus position and demolitions.

Brownfield: land which has previously been developed. The term may cover vacant or derelict land, land occupied by redundant or unused buildings, and developed land within the settlement boundary where further intensification of use is considered acceptable. It does not include mineral workings, temporary uses, parks and gardens, sports and recreation grounds, woodlands, and amenity open spaces (landscaped areas that improve an area's appearance).

Completion Certificate (CC): confirms that the work completed on a property complies with the approved building warrant and the building regulations. It is an offence to occupy a new building, conversion, or extension without a completion certificate.

Development Plan: two Strategic Development Plans (TAYplan and SESplan) and Fife's Local Development Plan, FIFEplan provide the statutory planning framework for Fife.

Effective Housing Land Supply: the part of the established housing land supply which is free or expected to be free of constraints in the period under consideration and will therefore be available for the construction of housing.

Established Housing Land Supply: the total housing land supply – including both unconstrained and constrained sites. This will include the remaining capacity of sites under construction, sites with planning consent, sites in adopted local plans or the proposed local development plan and, where appropriate, other buildings and land with agreed potential for housing development such as sites in the Strategic Housing Investment Plan where funding is committed.

Greenfield: land which has never previously been developed or used for an urban use or sites or land which has been brought into active and beneficial use for agriculture or forestry e.g., surface mineral workings or derelict land which has been fully restored.

Housing Land Requirement: the outcome of an assessment of housing demand and need (expressed in housing units) which reflects the planning strategy and environmental and infrastructural constraints of an area. Local development plans must allocate land for housing sufficient to meet the housing land requirement.

Housing Market Area: a geographical area which is relatively self-contained in terms of reflecting people's choice of location for a new home, i.e., a large percentage of people buying a home in the area will have sought a house only in that area. Fife is divided into 5 HMA's; Dunfermline and West Fife; Kirkcaldy, Glenrothes and Central Fife; St Andrews and East Fife; Greater Dundee; Cupar and North West Fife. Figure 1.1 provides a map showing the broad coverage of each HMA across Fife."

Housing Land Audit: a document setting out the housing land supply position as at 1st April each year.

Housing Supply Target: a policy view of the number of homes the Strategic Development Planning Authority has agreed will be delivered in each housing market area over the periods of the development plan and local housing strategy, considering wider economic, social, and environmental factors, issues of capacity, resource and deliverability, and other important requirements.

Local Development Plan: The Planning etc. (Scotland) Act 2006 provided for the replacement of Local Plans with Local Development Plans. The Local Development Plan for Fife, FIFEplan, was adopted on 21st September 2017.

Non-effective Housing Land Supply: that part of the established housing land supply which is not expected to contribute towards meeting the housing land requirement due to ownership, physical, contamination, deficit funding, marketability, infrastructure, or land use constraints. Sites which are subject to one or more constraints may become effective if the constraints are addressed.

Planning Obligation: planning obligations are obligations entered into in an agreement or unilateral arrangement made under the terms of Section 75 of the Town and Country Planning (Scotland) Act 1997. They are used to control appropriate planning matters out with the scope of planning conditions where new impacts arise from proposed development activity. Further information is available within Scottish Government Circular 3/2012.

Small Sites: sites with a capacity of fewer than 5 housing units.

Strategic Development Plan: The Planning etc. (Scotland) Act 2006 provided for the replacement of Structure Plans and the creation of Strategic Development Plans (SDPs). It gave Ministers the power to designate groups of planning authorities to work together to prepare and review these new plans. Fife is covered by two of these; TAYplan which includes north Fife and SESplan which includes central and west Fife.

Strategic Housing Investment Plan (SHIP): identifies the key investment priorities for affordable housing development, outlines the resources available and those that are needed, and highlights any risks around delivery.

Strategic Development Area (SDA): focus of development or a specific large-scale allocation for development identified in SESplan and TAYplan. SDAs supersede the former Strategic Land Allocations (SLAs).

Windfall Site: a site not specifically allocated for development in a local development plan but for which planning permission for residential development is granted.

EXECUTIVE SUMMARY

The Housing Land Audit is a statement of the agreed housing land supply position in Fife. The supply was agreed with Homes for Scotland and its members and also reflects the views of landowners and developers not affiliated to Homes for Scotland where these are known.

- The Housing Land Audit 2022 provides a “snapshot” of the housing land supply position for Fife as of 1st April 2022.
- 1,202 housing units on all sites, including small sites, were completed in the Audit year, 291 greater than last year
- 1,096 homes on sites of a capacity greater than 4 units were completed in 2021/2022. The Housing Land Audit 2021 predicted that these sites, where the capacity is greater than 4, would deliver 1,225 units in 2021/22. Although growth in the output of the house building industry has been sustained, this has been insufficient to meet predictions and this year’s completions are 11% below those anticipated.
- 301 affordable housing units of all site sizes and tenures were completed this year, 7 houses more than that achieved during the previous year (294 homes). Affordable housing accounted for 27% of all completions on sites of capacity greater than 4 houses.
- On sites of capacity greater than 4 units, 48% (527) of completions were in the Dunfermline and West Fife Housing Market Area; 33% (366) in the Kirkcaldy, Glenrothes and Central Fife HMA; 13% (140) in the St Andrews and East Fife HMA; 5% (54) in the Greater Dundee HMA; and 1% (9) in the Cupar and North West Fife HMA.
- On sites of capacity greater than 4 units, 29% (323) houses were built on brownfield land and 71% (773) were built on greenfield land.
- 8,034 housing units with planning permission on all sites greater than 4 units are yet to be built. Most of these sites are in the Dunfermline and West Fife; and Kirkcaldy, Glenrothes and Central Fife Housing Market Areas.
- 15,569 housing units without planning permission, including Strategic Development Areas, are allocated in the development plan, or committed in the SHIP.
- On 1st April 2022, the 5-year effective housing land supply position has been calculated for each Housing Market Area. The figures are shown below as either a surplus (Blue) or a shortfall (Red):
 - SESplan (Fife) Affordable – surplus of 779 homes
 - SESplan (Fife) Market – surplus of 1,714 homes
 - Dunfermline and West Fife Affordable – surplus of 426 homes
 - Dunfermline and West Fife Market – surplus of 694 homes
 - Kirkcaldy, Glenrothes and Central Fife Affordable – surplus of 353 homes
 - Kirkcaldy, Glenrothes and Central Fife Market – surplus of 1,020 homes
 - St Andrews and East Fife – surplus of 236 homes
 - Greater Dundee – shortfall of 91 homes
 - Cupar and North West Fife – shortfall of 215 homes

CHAPTER 1: INTRODUCTION

Purpose

1.1 The main purpose of the Housing Land Audit is to set out the housing land supply position at 1st April each year. This document provides a 'snapshot' of the housing land supply position as at 1st April 2022.

1.2 The Housing Land Audit is used by Fife Council to assess progress towards meeting the Housing Land Requirement; evaluate the effectiveness and take-up of housing land allocations in the Local Development Plan; and inform responses to planning applications. The Audit also assists Council decision-making in such spheres as education provision and transport planning, among others. Homes for Scotland and other interested parties such as developers, utility providers, consultants and the general public also use the Housing Land Audit.

Survey

1.3 Due to the ongoing pandemic, all sites with planning permission for 5 or more units were not visited as in previous years. A new methodology was utilised where all completions are assessed using Completion Certificate (CC) data from Building Standards and Safety. As we moved to the new CC's method, we knew there would be some differences to the previous site visit method. The caveat for this report is that CC's dated in the HLA2022 snapshot period which were counted and added in the completions figure in previous HLA site surveys have not been added to the completions for 2021/2022 to prevent double counting.

Additionally, during our survey we found a site where housing completions were missed and not counted in the 2016/17 and 2017/18 Audit timeframes. These completions have been added into the year which the housing units were completed. The Figures in Chapter 2 reflect the addition of these completions.

1.4 Small sites, i.e., those fewer than 5 housing units, have also been assessed using Completion Certificates data from Building Standards and Safety.

1.5 Where necessary, developers and landowners currently building on, or having an interest in, a site in Fife were contacted as to their likely build programme. Where given, their comments were noted and used to inform the data contained in the Schedules.

Agreement

1.6 The Housing Land Audit is a statement of the agreed and disputed housing land supply position in Fife. The supply was agreed with Homes for Scotland who consulted its members.

1.7 All sites in the Housing Land Audit were scrutinised and their status and programming agreed or formally disputed. The Audit does not represent full agreement of the housing land supply position in accordance with PAN 2/2010: Affordable Housing and Housing Land Audits and care should be taken in interpreting the data given. Where sites are disputed, the Audit represents the views of the Council.

Economic Factors

1.8 The Audit finds that the level of house building in 2021/2022 remains below the levels in the previous 4 years and continues to indicate that new housing providers, both public and private sector, are finding it challenging to deliver sufficient housing to return to pre-recession levels.

Strategic Development Plans

1.9 The approval of TAYplan 2 on 30th October 2017 introduced the housing market area for the Greater Dundee area. The Greater Dundee Housing Market Area is in North Fife and contains the settlements of Newport-on-Tay, Wormit, Tayport, Gauldry, Balmerino and Kirkton of Balmerino along with the surrounding rural land. The formation of this housing market area means that the former St Andrews and North East Fife Housing Market Area is subdivided, and the remainder is named the St Andrews and East Fife Housing

Market Area.

1.10 On the 16th of May 2019 Scottish Ministers issued their decision letter advising of the rejection of SESplan 2 Strategic Development Plan. That decision, in summary, was that SESplan 2 did not take sufficient account of the relationship between land use and transport. Ministers made no mention of housing. Advice reported to and agreed by the SESplan Joint Committee on 30th September 2019 stated that “constituent authorities will be required to apply material weight to the content of SESplan 2 Housing Background Paper (Housing Need and Demand Assessment 2, 2015) – that having been declared ‘robust and credible’ by decision makers in the preparation of SESplan 2”. The advice also indicated in this respect that; “when assessing development proposals for sites not allocated for development in the development plan, SESplan member authorities can have regard to the following:

1. the provisions and requirements of SDP1 which address housing land supply, transport, and infrastructure issues;
2. the level of housing provision allocated and/or safeguarded in adopted LDPs;
3. the policies of SDP2 Proposed Plan with the exception of those policies relating to transport infrastructure;
4. SDP2 Examination Report;
5. updated information from the latest Housing Land Audit;
6. the Housing Needs and Demand Assessment 2015 (HNDA2) and
7. SDP2 Proposed Plan Housing Background Paper (October 2016).”

The Agreement by the SESplan Joint Committee ensures that this and future HLAs across the constituent authorities should accord in so far as they adopt the same assumptions and basis. The housing land requirement of SESplan 1 is in excess of that identified through the Housing Need and Demand Assessment 2 (HNDA2) 2015 for SESplan 2, and the subsequent targets that were set in SESplan 2. It is the case that the requirements of SESplan 1 would have more effect on the transport network than the targets assessed in 2016 following the HNDA2. It is the Council’s view that the calculation of the housing target for SESplan area of Fife will be based on HNDA2 and the Housing Background Paper for SESplan 2 as the most up-to-date information on housing need and demand in the SESplan area. This view was approved by Fife Council’s Economy, Tourism, Strategic Planning & Transportation Committee on the 30th of January 2020.

1.11 In the decision from the Court of Session on Gladman Developments Limited vs Scottish Ministers (3rd June 2020), the Inner House stated that when determining if a shortage exists in the effective housing supply, Reporters should have regard to the Housing Land Requirement in order to determine the level of this shortage. The Scottish Government published interim amendments to Scottish Planning Policy (SPP) (2014) relating to housing in late December 2020. One of the key amendments to SPP was the standardised and simplified methodology for calculating the effective housing land supply and they issued Planning Advice Note 1/2020: Assessing the extent of the 5-year effective supply of housing land in response to this. In July 2021, the Inner House of the Court of Session decided to “grant decree of reduction of the Scottish Planning Policy-Finalised Amendments-2020 and PAN 1/2020”. While the methodology was not prescriptive, PAN 1/2020 does confirm the Scottish Ministers agree with the use of the Housing Land Requirement for calculating the effective housing land supply. In previous housing land audits Fife Council have used the Housing Supply Target (HST) as the basis for calculating the effective supply. This audit uses the updated Housing Land Requirement (HLR) figures from the Strategic Development Plans (SDPs), as outlined in paragraphs 1.09 and 1.10, to assess the effective supply. As outlined in SDPs, the HLR is calculated by adding 10% to the HST. The recent judgement does not require a change to the methodology for calculating the effective supply and so this audit continues to take account of backlog, shortfall/surplus positions, demolitions, and allowances as in previous audits with the justification and method outlined in chapter 4.

Disclaimer

1.12 The information contained in the Housing Land Audit is believed to be accurate as on 1st April 2022. Whilst every effort has been taken to avoid errors, interested parties should verify for themselves the latest position in respect of individual sites. Fife Council will not accept any responsibility for any financial or other claims arising from any errors in this document. The Council is, however, prepared to amend any inaccuracies which are brought to its attention. Please direct any correspondence to the contact below.

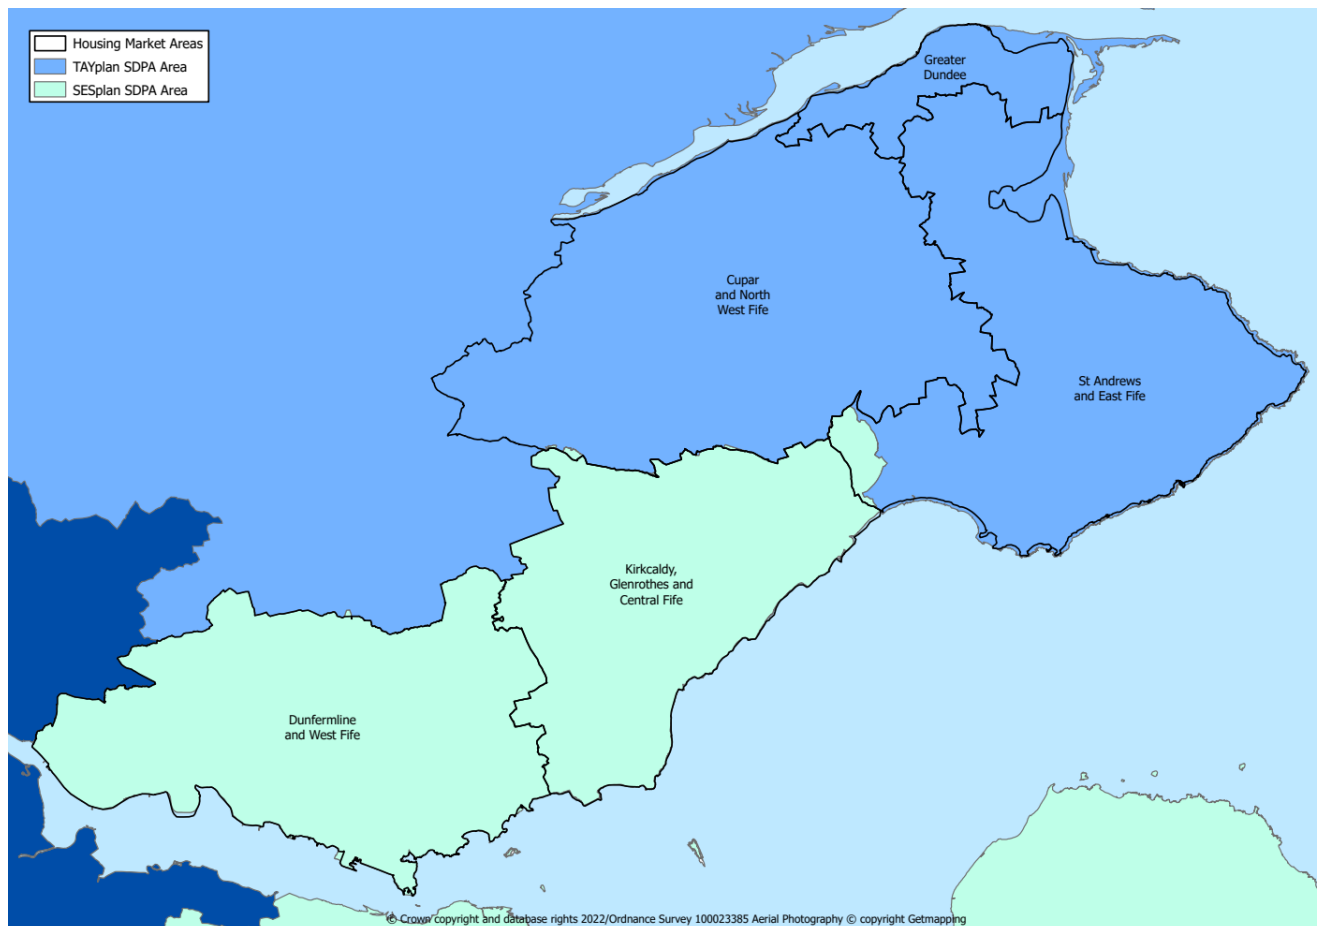

Online Information

1.13 Previous Housing Land Audits and the most up-to-date interactive mapping are available [here](#).

Feedback

1.14 As part of an ongoing commitment to review the content and presentation of this document, the Council would welcome suggestions as to how the Housing Land Audit could be improved in future years. If you have any comments to make, please send them to land.audits@fife.gov.uk

Figure 1.1: Housing Market Areas and Strategic Development Plan (SDP) Areas

CHAPTER 2: HOUSING COMPLETIONS

Monitoring Housing Completions

2.1 Since 1987, the Housing Land Audit has monitored new house building and other means of creating new housing units such as the conversion of existing non-residential buildings or the sub-division of large houses. There are three main reasons why it is useful to monitor completions:

- to monitor their contribution to the housing supply targets and the housing land requirements.
- to allow assumptions to be made regarding the likely output of the effective housing land supply; and
- to assist in predicting future trends which may, in turn, have implications for future demand assessments.

2.2 Wholly completed sites with no remaining capacity are removed from the established land supply on an annual basis although the units completed still contribute to the housing land requirement. Schedule 4 gives the details on wholly completed sites.

Past Completions

2.3 Care should be taken in interpreting past completion rates which may have been subject to influences such as market conditions or supply constraints.

Figure 2.1: Completions by Housing Market Area 2009/2010 – 2021/2022

Housing Market Area/Year	12/13	13/14	14/15	15/16	16/17	17/18	18/19	19/20	20/21	21/22

Source: Fife Council – House Completion Surveys, and Building Standards and Safety data

Notes:

1. Sites of capacity greater than 4 houses.
2. Where sites with completions have been deleted from the Housing Land Audit, generally because of a change in site size, these completions have been removed from this Figure. Consequently, this may not accord with previous Housing Land Audits.
3. This figure corrects errors in years 16/17 and 17/18 where completions on a site were identified and subsequently added into the 2022 Housing Land Audit

2.4 Total completion rates for all tenures have varied from year to year and have not followed any specific pattern (see Figures 2.1, 2.2 and 2.3). Until 2008/2009 the overall trend had been upwards, but the effects of the recession have had a significant effect on housebuilding. The 6 years prior to 2016/17 were the 6 years with the fewest completions since records began in 1987 as shown in Figure 2.2. However, 2016/17 and 2017/18 showed signs of an upturn in house building in Fife with the highest number of completions since the recession (1303 completions in both years). In 2020 and 2021, Scotland was in the Coronavirus Pandemic where guidance stated by the Scottish Government was to stay at home and not to undertake any non-necessary journeys and to socially distance from others. The completion figure for 2020/2021 is less than 1,000 houses the first time since 2015/2016. The reason for this could be that the pandemic and the guidance set out by the Scottish Government meant less houses could be built as the house builders and developers were legally required to stay at home and to socially distance from others. In 2021/2022, the completion figure has increased from 2020/2021 with a completion figure rising above 1,000 houses which is similar figure of pre-pandemic figures seen in 2019.

Notes: 1. Completions on sites of capacity greater than 4 units

2. This figure corrects errors in years 16/17 and 17/18 where completions on a site were identified and subsequently added into the 2022 Housing Land Audit

Small Site Completions

2.5 Small sites are sites of fewer than 5 units. Data for small site completions is obtained from Building Standards and Safety Completion Certificates records. New completions which are permanent residences and are not part of larger sites are noted as small site completions. In 2021/2022 there were 106 house completions on small sites. Small sites contribute to the TAYplan Housing Land Requirements in the Greater Dundee, St Andrews, and East Fife, and Cupar and Northwest Fife Housing Market Areas.

Figure 2.4: Small Site Completions 2010/2011 – 2021/2022

Affordable Housing Completions

2.6 Until 2017, details of the number and tenure of affordable housing completions were supplied by the Scottish Government and interpreted by Fife Council's Housing Services. From 2017, affordable housing completions were limited to those observed as new build or conversion and, unlike figures for previous years, do not include other types of affordable housing creation. Figure 2.5 gives the history of affordable housing completions in Fife

Figure 2.5: Affordable Housing Completions by Housing Market Area 2010/2011 – 2021/2022

CHAPTER 3: HOUSING LAND SUPPLY

Introduction

3.1 This Chapter discusses and summarises the housing land supply position as of 1st April 2022, based on the Schedules contained in Chapter 5.

Criteria for Sites to be Included in the Housing Land Audit

3.2 The Housing Land Audit lists all sites included in the established land supply i.e., sites with a capacity of five or more units that meet one or more of the following criteria:

- sites with a current planning consent for residential development including sites under construction;
- sites in the adopted local development plan;
- sites with agreed potential for housing development e.g., sites in an agreed development strategy such as the Strategic Housing Investment Plan (SHIP).

3.3 The established land supply does not include:

- sites which are the subject of undetermined planning applications, including those which are the subject of an uncompleted Section 75 obligation or other legal agreement, where such sites are not allocated in the Development Plan or the SHIP;
- sites granted planning permission after 31st March 2022 where such sites are not allocated in the Development Plan or the SHIP;
- sites in the SHIP which are not yet fully committed and funded; or
- sites of fewer than 5 units.

Removal of a Site from the Established Housing Land Supply

3.4 Once included in the Housing Land Audit, a site will remain in the established land supply until:

- the site is completed;
- the site is developed for another use;
- the site capacity is reduced to fewer than 5 units;
- planning permission lapses or is revoked and the site is not allocated in the Development Plan or the SHIP; or
- a new local development plan is adopted, superseding the existing adopted plan, and the site is not included in the new plan.

3.5 The refusal of planning consent on a local development plan site does not exclude it from the established land supply. It may, depending on individual circumstances, become part of the non-effective supply, and will only be removed from the established land supply through the local development plan process.

Established Housing Land Supply

3.6 The established land supply as of 1st April 2022 for Fife was 33,936 units, based on the criteria set out above. This figure has increased since last year reflecting the balance of completions on site; the removal of deleted sites; the commitment to sites in the Strategic Housing Investment Plan; and windfall sites coming forward through the Development Management process. The sites which make up the established land supply are detailed in Schedules 1 and 2 and are summarised in Figures 3.1 and 3.2 below.

Figure 3.1: Established Land Supply by Housing Market Area 2022

Housing Market Area	Established land supply	Unconstrained land supply*	Non-effective (constrained) land supply
Dunfermline and West Fife	15,968	11,135	4,833
Kirkcaldy, Glenrothes and Central Fife	12,557	8,068	4,489
St Andrews and East Fife	2,562	1,942	620
Greater Dundee (Fife)	419	226	193
Cupar and North West Fife	2,430	2,232	198
Fife	33,936	23,603	10,333

Source: Schedules 1 and 2, Fife Housing Land Audit 2022

Note: The established land supply is the sum of the unconstrained and the non-effective land supply.

* These figures represent the total unconstrained supply and are not limited to the 5-year period identified on a site-by-site basis in Schedule 1.

Schedule 1: Effective Land Supply

3.7 The effective land supply is land that is free from infrastructure, marketing, ownership, physical, contamination, deficit funding, land use or programming constraints in the period under consideration and is therefore available for the construction of housing. All sites meeting the above criteria are detailed in Schedule 1. Sites which are programmed to start beyond 2027 show no programming in the 5 years detailed in Schedule 1. This lack of programming information does not necessarily imply any restriction on a developer to develop in advance of any stated programming. Neither the Housing Land Audit nor the Development Plan place any restriction on any site coming forward for development earlier than programmed although individual sites may have their annual delivery limited through a condition of the relevant planning consent in order to allow for supporting infrastructure to be delivered in a planned manner.

Composition of the Unconstrained Land Supply

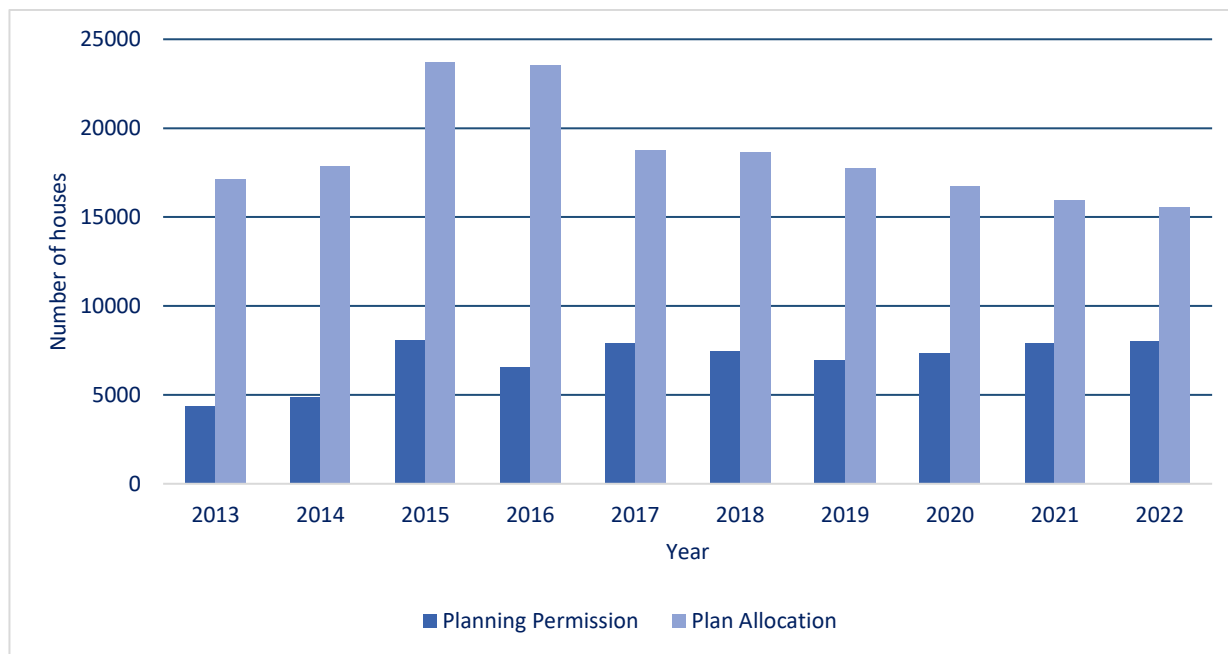

3.8 The unconstrained land supply is made up of sites with planning permission, either full or in principle, including the remaining capacity of sites under construction; sites allocated for housing development in the adopted local development plan; and sites committed through the Strategic Housing Investment Plan (SHIP). Figure 3.2 splits the unconstrained land supply into sites with planning consent and sites allocated in the development plan or SHIP by Housing Market Area. Figure 3.3 shows the recent history of the unconstrained supply.

Figure 3.2: Unconstrained Land Supply by Housing Market Area 2022

Housing Market Area	With Planning Permission	Allocated in Local Development Plan/SHIP
Dunfermline and West Fife	3,686	7,449
Kirkcaldy, Glenrothes and Central Fife	3,375	4,693
St Andrews and East Fife	460	1,482
Greater Dundee (Fife)	154	72
Cupar and North West Fife	359	1,873
Fife Totals	8,034	15,569

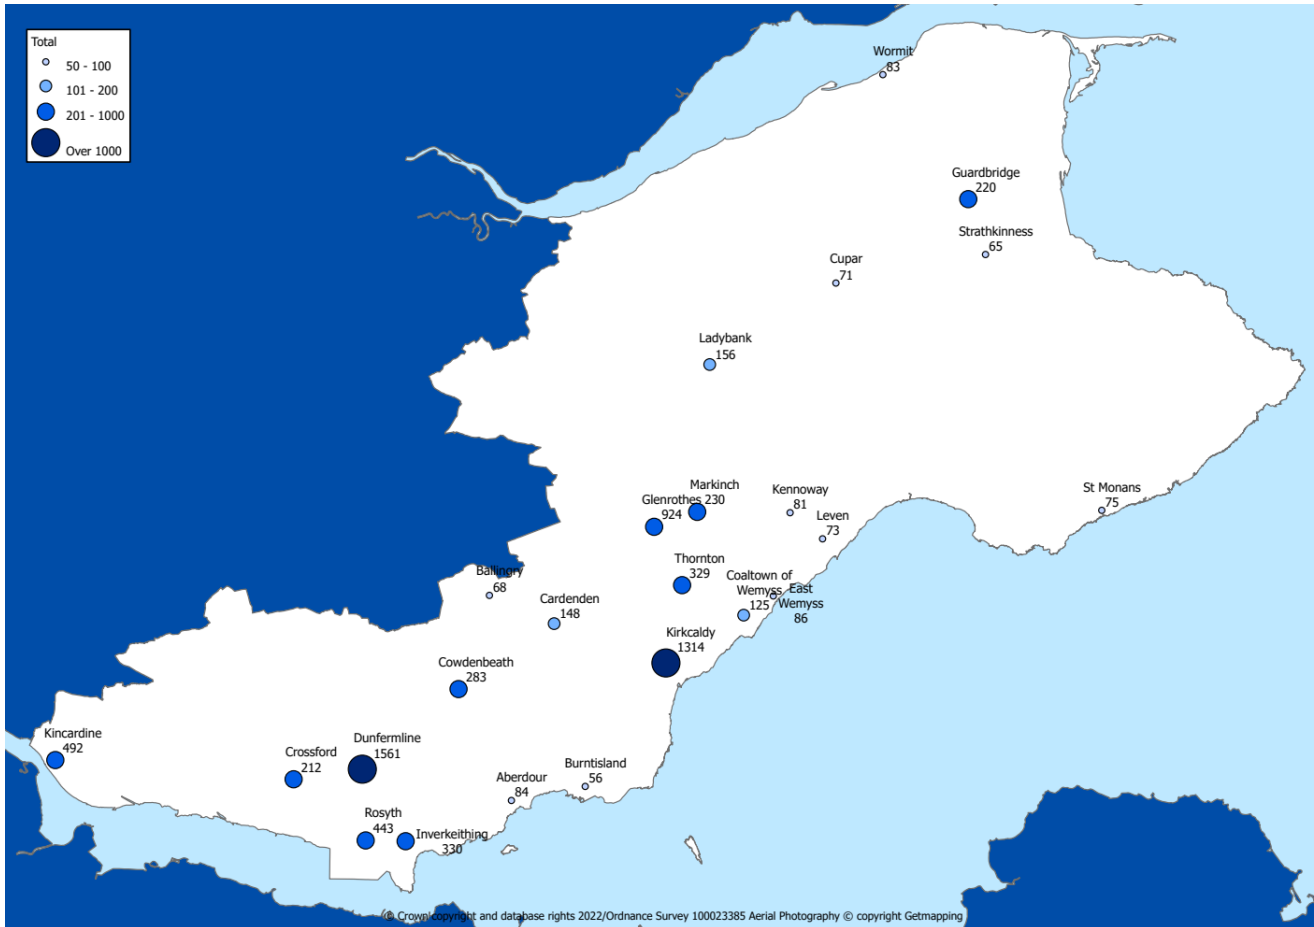

Source: Schedule 1, Fife Housing Land Audit 2022

Source: Housing Land Audits

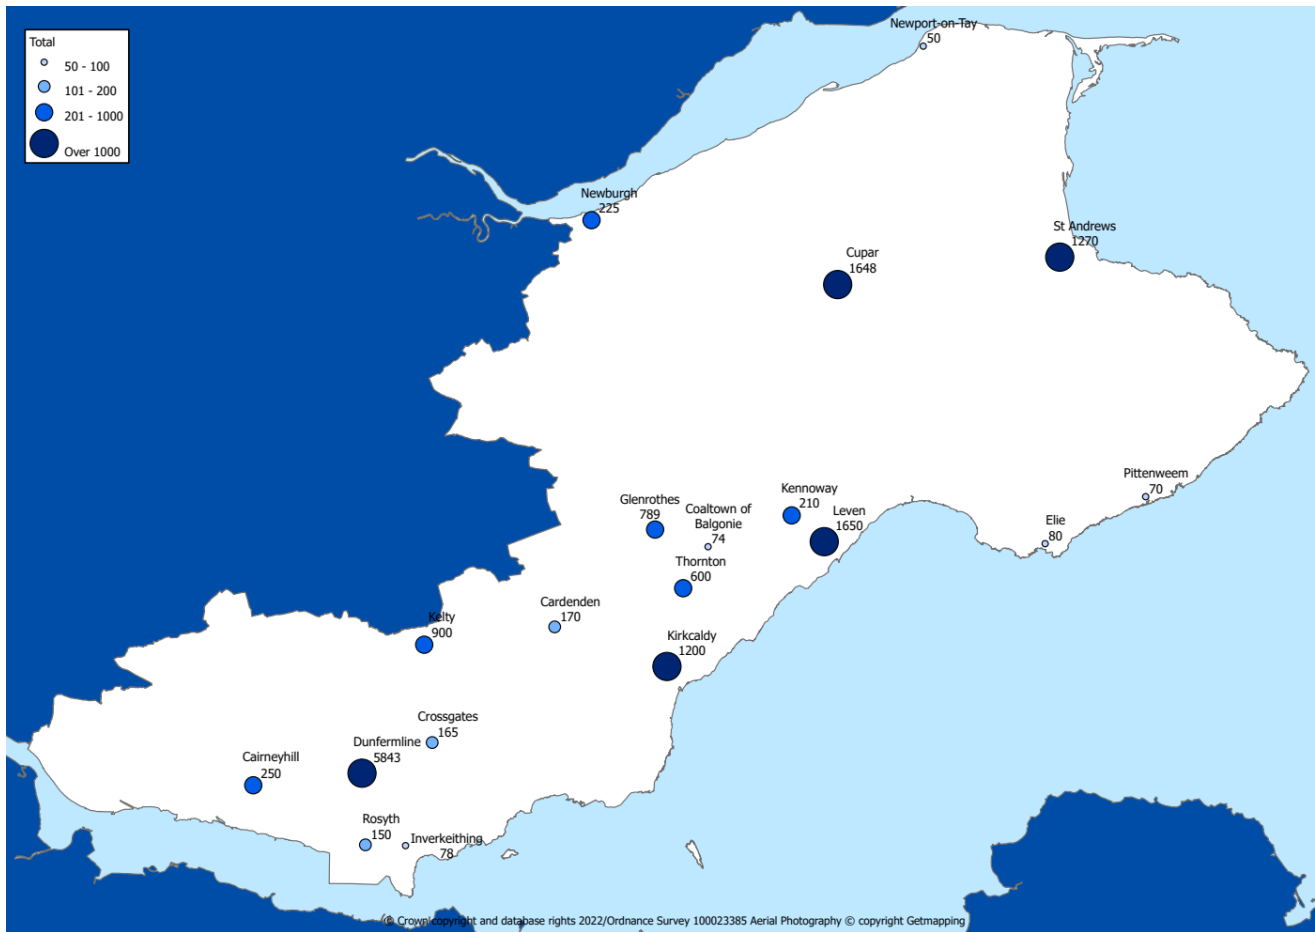

Figure 3.4: Unimplemented Housing Consents 2022

Note: Settlements with fewer than 50 effective, consented undeveloped units have been omitted for reasons of scale and clarity.

3.9 Figure 3.4 shows the geographical distribution of those sites with planning permission including the undeveloped portion of sites which are under construction. 8,034 unconstrained housing units with planning consent remain to be developed with the majority of these in the Dunfermline and West Fife, and Kirkcaldy, Glenrothes and Central Fife Housing Market Areas.

Figure 3.5: Plan Allocations 2022

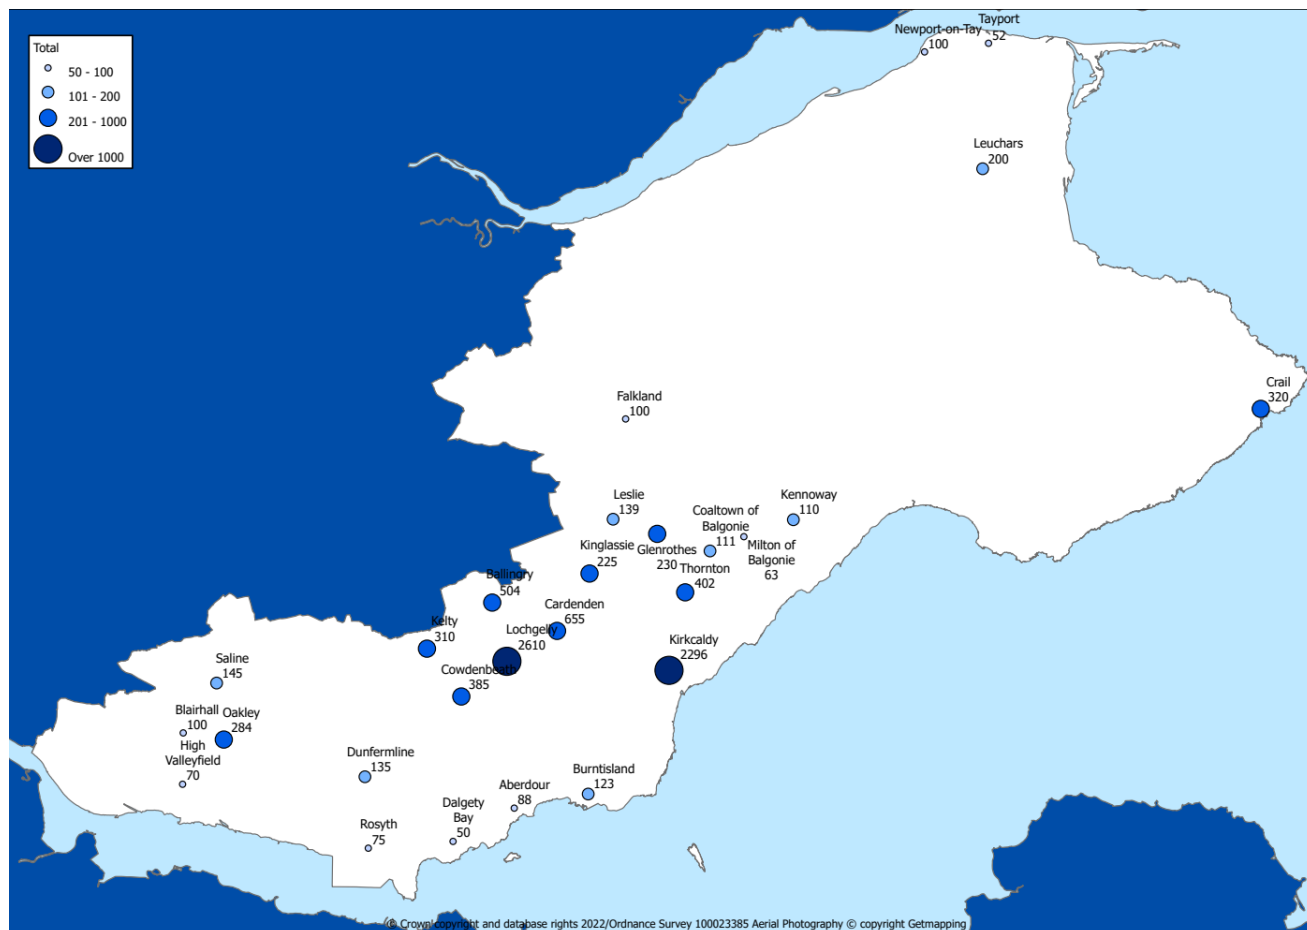

Note: Settlements with allocations for fewer than 50 units have been omitted for reasons of scale and clarity.

3.10 Figure 3.5 shows the geographical distribution of those effective sites allocated in the development plan or committed for development in the SHIP and without planning permission. 15,569 unconstrained housing units are allocated.

Schedule 2: Non-effective Land Supply

3.11 Where constraints exist on a site precluding its development, the site is considered to be non-effective and no contribution to the housing supply targets is assumed. This consideration does not prevent a site from contributing in the future if the constraints can be overcome or if circumstances change. There are currently 10,333 non-effective units. Figure 3.6 gives the geographical distribution of non-effective sites.

Figure 3.6: Non-effective Sites 2022

Note: Settlements with non-effective sites for fewer than 50 units have been omitted for reasons of scale and clarity

Schedule 3: Deleted Sites

3.12 It is necessary to delete sites which are no longer available for housing development or where changes in circumstances mean that they fail to continue to meet the criteria for inclusion in the established land supply. Some sites are deleted and replaced in order to reflect changing circumstances such as the site being subdivided. Such sites do not generally result in a significant overall loss of houses. A total of 34 housing units were deleted from the established housing land supply in 2021/2022 as follows:

- 34 houses deleted as the planning applications on site had lapsed and no construction had started and are not allocated in the Development Plan or the SHIP

Disputed Sites

3.13 Each year those parties involved in the preparation of the Housing Land Audit strive to reach full agreement on the contribution of sites towards the housing supply targets. Where full agreement cannot be reached, the site is recorded as being the subject of a dispute. This year, no sites have been formally disputed by Homes for Scotland.

Windfall Sites

3.14 Windfall sites are those sites of greater than 4 units not specifically allocated for development in a local development plan but for which planning permission for housing development is granted. The 100% coverage of Fife by the adopted local development plan offers an opportunity to assess, on an annual basis, the contribution made by windfall sites to the housing land supply. In 2021/2022, 18 new windfall sites came forward with a combined capacity of 1,119 units. The level of windfalls is significant because:

- it delivers extra flexibility over and above Development Plan assumptions; and
- it demonstrates that Development Plan policy allows for a range and choice of smaller to medium size sites in addition to those identified in the local development plan.

Figure 3.7: Windfall Sites 2010/11 – 2021/2022

Housing Market Area/Year	12/13	13/14	14/15	15/16	16/17	17/18	18/19	19/20	20/21	21/22

Source: Housing Land Database 2022

Demolitions

3.15 Demolitions are a small but important component of both housing land supply and need and demand. Demolitions reduce the existing housing stock, and the loss of this stock needs to be compensated for by building replacement housing.

3.16 Demolitions are only significant in the Dunfermline and West Fife; and Kirkcaldy, Glenrothes and Central Fife Housing Market Areas. Demolitions are ignored in the St Andrews and East Fife; Greater Dundee (Fife); and Cupar and North West Fife Housing Market Areas as they are so infrequent as to be insignificant. These Housing Market Areas are excluded from Figure 3.8.

3.17 The Scottish Government, at paragraph 53 of [PAN 2/2010: Affordable Housing and Housing Land Audits](#), states “Completions on regeneration sites should be shown net of any demolitions which have taken place.” However, demolitions generally take place on sites of high-density housing e.g., Trondheim Parkway, Dunfermline; Kincardine High Flats; Tanshall Maisonettes, Glenrothes; Fraser Avenue, Inverkeithing; etc. and such housing is generally replaced by lower density housing. This means that the regeneration of such sites, if the Government’s advice is to be heeded, is likely to lead to a negative number of houses being recorded as built and this would skew annual and overall completions data. Instead, a figure equal to the number of demolitions is added to the housing land requirement for the affected Housing Market Area and aggregated at SESplan (Fife) Area level thereby increasing the need and demand rather than reducing the supply. This allows construction activity to be accurately reported whilst still taking account of loss of housing stock through demolition.

Figure 3.8: Demolitions 2012/2013 – 2021/2022

Housing Market Area/Year	12/13	13/14	14/15	15/16	16/17	17/18	18/19	19/20	20/21	21/22	Total
Dunfermline and West Fife	4	80	0	4	74	19	54	54	0	0	289
Kirkcaldy, Glenrothes and Central Fife	0	4	0	0	0	0	0	0	0	0	4
SESplan	4	84	0	4	74	19	54	54	0	0	293

Source: Fife Council Housing Services

Notes: 1. This figure corrects errors in years 16/17 and 17/18 where it was previously reported that 72 demolitions had taken place in both years. Fife Council Housing Services have provided update figures for both years which are reflected above.

CHAPTER 4: MEETING THE HOUSING LAND REQUIREMENT

Context

4.1 The Scottish Government, in [Planning Advice Note 2/2010: Assessing the extent of the 5 year supply of effective housing land](#), advises that Housing Land Audits should indicate the output from effective sites for a 5-year period with an indicative figure for later years. The Housing Land Audit shows 5 years of programming on effective sites with an indication of the number of house units remaining to be developed post-2027. This is shown in Schedule 1.

4.2 As discussed in section 1.11 this audit uses the updated Housing Land Requirement figures in the Strategic Development Plans (paragraph 1.09, 1.10) to assess the 5-Year Effective Supply. The SDPs state the HLR will be calculated by adding 10% to the Housing Supply Target. The HST is the outcome of an assessment of housing demand and need (expressed in house units), which reflects the planning strategy and environmental and infrastructure constraints. Before the HLR can be calculated the HST must first be adjusted to account for backlog shortfall/surplus position and demolitions.

Calculating the Adjusted Annual Housing Supply Targets

4.3 Fife’s strategic planning framework is given by two Strategic Development Plans, both of which extend to cover different parts of Fife: TAYplan covers North East Fife and SESplan covers Central and West Fife (see Figure 1.1). The Strategic Development Plans treat the housing supply targets differently and each is discussed separately.

SESplan

Adjusting the Annual Housing Supply Target

4.4 Following the rejection of SESplan 2 by Scottish Ministers on the 30th of May 2019, and as outlined in paragraph 1.10 of this report, the calculation of the housing target for the SESplan area of Fife will be based on HNDA2 (March 2015) and the Housing Background Paper for SESplan 2 (October 2016), as the most up-to-date information on housing need and demand in the SESplan area.

4.5 HNDA2 and the Housing Background Paper for SESplan 2 differs from the approved SESplan in several ways:

- It introduces Housing Supply Targets which enumerate the houses which must be delivered. The Housing Land Requirements enumerate the houses for which land must be identified in a Local Development Plan.
- The Housing Supply Targets are split by affordable and market tenures.

4.6 The proposed SESplan 2 sets the housing supply targets at local authority level. The split is shown at Figure 4.1.

Figure 4.1: Proposed SESplan 2 and Housing Market Area Housing Supply Targets

Area/Tenure	Market		Affordable		Combined	
	Annual Average	2022-2030	Annual Average	2022-2030	Annual Average	2022-2030
SESplan (Fife)	605	4,840	262	2,096	867	6,936

Sources: Housing Background Paper for SESplan 2, Table 1

4.7 In order to assess shortfall/surplus at the base date of HNDA2 the Housing Supply Targets are backdated to 2012/2013

Figure 4.2: Proposed SESplan 2 and Housing Market Area Housing Supply Targets backdated to 2012/2013

Area/Tenure	Market		Affordable		Combined	
	Annual Average	2012-2030	Annual Average	2012-2030	Annual Average	2012-2030
SESplan (Fife)	605	10,890	262	4,716	867	15,606

4.8 The supply is further assessed at housing market area level. Apportioning the market housing supply target to the FIFEplan HMAs is a straightforward split with $\frac{2}{3}$ of the HST apportioned to the Dunfermline and West Fife HMA and $\frac{1}{3}$ to the Kirkcaldy, Glenrothes and Central Fife HMA.

Figure 4.3: Market Housing Supply Targets for FIFEplan Housing Market Areas

Area	Annual HST
SESplan (Fife)	605
Dunfermline and West Fife HMA	403
Kirkcaldy, Glenrothes and Central Fife HMA	202

Sources: Housing Background Paper for SESplan2, FIFEplan

4.9 Policy 2 of FIFEplan stipulates the percentage of affordable housing that is required in each locality area. These percentages have been applied to the affordable HST based on the number of households present in each of the locality areas within SESplan (Fife). This calculation means that 61% of the affordable HST is apportioned to the Dunfermline and West Fife HMA and 39% to the Kirkcaldy, Glenrothes and Central Fife HMA.

Figure 4.4: Affordable Housing Supply Targets for FIFEplan Housing Market Areas

Area	Annual HST
SESplan (Fife)	262
Dunfermline and West Fife HMA	160
Kirkcaldy, Glenrothes and Central Fife HMA	102

Sources: Housing Background Paper for SESplan2, FIFEplan

Demolitions

4.10 The Report of Examination into SESplan 2 states that allowances for demolitions shall be made. Demolitions in Fife have generally involved affordable tenure housing with demolitions of market stock to be so infrequent and of such small numbers as to be insignificant and are therefore disregarded. Demolitions of public stock are estimated to number 535 in the period 2012-2030. This is made up of demolitions 2012-2022 of 293; the demolition of the remainder of the Fraser Avenue site at Inverkeithing of 54 in the next year, demolition of 24 at both Glenwood Centre in Glenrothes and Sir George Bruce Road in Oakley all in the next year; and an estimated 140 at 20 per annum for the remainder of the proposed SESplan period from 2023-2030 (15 in the Dunfermline and West Fife HMA and 5 in the Kirkcaldy, Glenrothes and Central Fife HMA). This gives an average of 30 demolitions per annum. These confirmed, planned, and assumed demolitions are added to the affordable HSTs as per Figure 4.5. Therefore, to take demolitions into account, 30 units are added to the affordable Housing Supply Target (HST) each year. Demolitions must then be apportioned to the relevant FIFEplan HMA. Over the period 2012-2030 it is assumed that the Dunfermline and West Fife HMA has experienced or will experience 472 demolitions of public housing stock. The figure apportioned to the Kirkcaldy, Glenrothes and Central Fife HMA is 63.

Figure 4.5: Affordable Housing Supply Targets for FIFEplan Housing Market Areas adjusted for demolitions

HMA	HST	Demolitions	Adjusted HST
Dunfermline and West Fife	160	26	186
Kirkcaldy, Glenrothes and Central Fife	102	4	106
SESplan	262	30	292

Source: Fife Council Demolitions Monitor

Backlog Shortfall/Surplus Position

4.11 The next stage in the process is to take into account housing delivery by both tenures in the years 2012-2021. Although affordable completions on a site-by-site basis were not surveyed before 2017, each site where completions were delivered has been individually assessed for the period 2012-2022. It is believed, although not guaranteed, that the aggregate affordable completions for 2012-2022 are correct on each site and, therefore, cumulatively.

Figure 4.6: Affordable tenure backlog position by HMA and SESplan (Fife) 2012-2022

Area/HMA	Annual HST	HST 2012-2022	Completions 2012-2022	Surplus/ Shortfall (-)
Dunfermline and West Fife	186	1,860	1,725	-135
Kirkcaldy, Glenrothes and Central Fife	106	1,060	1,334	274
SESplan (Fife)	292	2,920	3,059	139

Figure 4.7: Market tenure backlog position by HMA and SESplan (Fife) 2012-2022

Area/HMA	Annual HST	HST 2012-2022	Completions 2012-2022	Surplus/Shortfall (-)
Dunfermline and West Fife	403	4,030	3,736	-294
Kirkcaldy, Glenrothes and Central Fife	202	2,020	1,673	-347
SESplan (Fife)	605	6,050	5,409	-641

4.12 The calculation of the backlog positions allows the HSTs for 2022-2030 to be calculated. The HSTs are increased to take account of shortfall and reduced to take account of surplus.

Figure 4.8: Adjusted HSTs by HMA and SESplan (Fife) 2022-2030

Area	Tenure	Base annual HST including demolitions	Annual adjustment for surplus/shortfall	Adjusted annual HST	Total HST 2022-2030
Dunfermline and West Fife HMA	Affordable	186	+17	203	1,624
	Market	403	+37	440	3,520
Kirkcaldy, Glenrothes and Central Fife HMA	Affordable	106	-34	72	576
	Market	202	+43	245	1,960
SESplan (Fife)	Affordable	292	-17	275	2,200
	Market	605	+80	685	5,480

Figures may not sum due to rounding.

Housing Land Requirement 2022-2027

4.13 As outlined in Strategic Development Plans the HLR is calculated by adding 10% to the HST.

Figure 4.9: Housing Land Requirement by HMA and SESplan 2022-27

Area	Tenure	Adjusted annual HST	HST 2022-2027	HLR 2022-2027
Dunfermline and West Fife HMA	Affordable	203	1,015	1,117
	Market	440	2,200	2,420
Kirkcaldy, Glenrothes and Central Fife HMA	Affordable	72	360	396
	Market	245	1,225	1,348
SESplan (Fife)	Affordable	275	1,375	1,513
	Market	685	3,425	3,768

Calculating the 5-year effective housing land supply

Sites currently under construction

4.14 There are several elements to be considered when determining whether the housing land supply is sufficient to meet or exceed the Housing Land Requirement and demonstrate a 5-year effective housing land supply in accordance with PAN2/2010: Affordable Housing and Housing Land Audits. These elements, discussed in turn, are:

- Contribution from sites under construction
- Contribution from sites not under construction
- Allowance for non-effective sites constrained solely by marketing
- Allowance for windfall sites

4.15 Because of the tenure split, sites under construction must be assessed separately from allocated sites where construction has not commenced. Where there is an element of affordable housing on a site under construction, it may be that all of this may have been developed; some may have been developed with some outstanding; or none may have been developed. There is no overarching calculation that can be used here, and each site must, once again, be assessed separately.

4.16 The total programmed delivery from sites under construction as of 1st April 2022 in the 5-year period 2022-2027 is 2,210 units of which 769 units are affordable and 1,441 market tenure. For sites under construction which are expected to extend beyond the 5-year period before they are wholly completed, assumptions have been made in line with the tenure of the site and the affordable housing percentages stipulated in Policy 2 of FIFEplan. Where the use of Policy 2 results in an affordable housing requirement of fewer than 5 units on the site, it is assumed that this requirement will be set aside through paying a commuted sum and no affordable housing delivery is expected on site.

Figure 4.10: Programming of sites under construction 2022-2027

Area	Tenure	Programming 2022-2027
Dunfermline and West Fife HMA	Affordable	525
	Market	827
Kirkcaldy, Glenrothes and Central Fife HMA	Affordable	244
	Market	614
SESplan (Fife)	Affordable	769
	Market	1,441

Sites not currently under construction

4.17 Sites not under construction are those effective sites which have yet to deliver housing. Sites of this type include LDP allocations; sites committed for development in the Strategic Housing Investment Plan; and sites with planning consent. The level of affordable housing assumed to be capable of delivery by such sites has been informed by the tenure of the site and the affordable housing percentages given in Policy 2 of FIFEplan. Where the use of the percentages of Policy 2 of FIFEplan results in an affordable housing requirement of fewer than 5 units, it is assumed that this requirement will be dealt with by paying a commuted sum.

4.18 The total programmed delivery from effective sites not under construction in the period 2022-2027 is 4,305 units made up of 1,286 affordable homes and 3,019 market homes.

Figure 4.11: Programming of effective sites not currently under construction 2022-2027

Area	Tenure	Programming 2022-2027
Dunfermline and West Fife HMA	Affordable	883
	Market	1,722
Kirkcaldy, Glenrothes and Central Fife HMA	Affordable	403
	Market	1,297
SESplan (Fife)	Affordable	1,286
	Market	3,019

Calculating the programmed 5-year effective housing land supply by tenure 2022-2027

4.19 Having calculated the adjusted Housing Land Requirement and the programmed output from sites under construction and effective sites not under construction, the 5-year effective housing land supply position, net of the allowances for non-effective sites constrained solely by marketing and windfall sites, can be calculated.

Figure 4.12: Programmed 5-year effective supply by tenure 2022-2027

Area	Tenure	Sites under construction	Other allocated sites	Total programmed delivery 2022-2027	HLR 2022-2027	Surplus/ Shortfall (-)
Dunfermline and West Fife HMA	Affordable	525	883	1,408	1,117	291
	Market	827	1,722	2,549	2,420	129
Kirkcaldy, Glenrothes and Central Fife HMA	Affordable	244	403	647	396	251
	Market	614	1,297	1,911	1,348	563
SESplan (Fife)	Affordable	769	1,286	2,055	1,513	542
	Market	1,441	3,019	4,460	3,768	692

4.20 As can be seen from Figure 4.12, there is a 5-year effective housing land supply in both SESplan Housing Market Areas over both tenures.

Allowance for non-effective sites constrained solely by marketing 2022-2027

4.21 The report of Examination into FIFEplan concluded that it was reasonable to assume that 15% of sites constrained solely by the marketing criterion in PAN 2/2010: Affordable Housing and Housing Land Audits would come forward for development during the lifetime of the Local Development Plan, FIFEplan, i.e., between 2017 and 2027. The 5-year period in question (2022-2027) equates to half of the LDP 10-year period, it is therefore assumed that half of the 15% of such constrained sites will come forward in this period. The location of sites constrained solely by the marketing criterion is known and the tenure split between market and affordable housing has been calculated using the percentage requirements set out in Policy 2 of FIFEplan. As many such constrained sites are in the areas of lower affordable housing requirement, the tenure split means that most of this allowance relates to market housing as is illustrated by Figure 4.13.

Figure 4.13: Allowance for non-effective sites constrained solely by marketing 2022-2027

Area	Tenure	Allowance
Dunfermline and West Fife HMA	Affordable	20
	Market	224
Kirkcaldy, Glenrothes and Central Fife HMA	Affordable	41
	Market	272
SESplan (Fife)	Affordable	61
	Market	496

Allowance for windfalls 2022-2027

4.22 Table 11.1 of the Housing Background Paper for SESplan 2 states an annual Windfall Allowance of 140 for Fife. The windfall allowance for 2022-2027 is 5×140 units = 700 units

4.23 Unlike sites constrained solely by the marketing criterion, windfall sites have no locational reference. Analysis of past windfall additions to the supply shows that, in the period 2012-2022 65% of windfalls arose in the Dunfermline and West Fife HMA giving an assumption of 455 units in the period 2022-2027 and 35% in the Kirkcaldy, Glenrothes and Central Fife HMA giving an assumption of 245 units in the same period. However, these figures do not stipulate the tenure of the windfall allowances and a further assumption is needed here.

4.24 Paragraph 129 of Scottish Planning Policy (SPP) 2014 states “Planning authorities should consider the level of affordable housing contribution which is likely to be deliverable in the current economic climate, as part of a viable housing development. The level of affordable housing required as a contribution within a market site should generally be no more than 25% of the total number of houses.” Affordable housing relies on funding which is difficult to predict beyond a 5-year period. It is expected that the overall portion of windfall development of affordable tenure will be greater than 25% but funding horizons mean that this cannot be relied on. This lack of certainty means that a windfall allowance split of 25% affordable tenure and 75% market tenure is assumed

Figure 4.14: Windfall allowances by tenure 2022-2027

Area	Tenure	Allowance
Dunfermline and West Fife HMA	Affordable	114
	Market	341
Kirkcaldy, Glenrothes and Central Fife HMA	Affordable	61
	Market	184
SESplan (Fife)	Affordable	175
	Market	525

4.25 Figures 4.15 to 4.20 give the current housing land position of the SESplan (Fife) area and The Dunfermline and West Fife and Kirkcaldy, Glenrothes and Central Fife HMAs and assess whether there is a 5-year effective housing land supply as per the Housing Land Requirements.

TAYplan

Adjusting the Annual Housing Supply Target

4.26 TAYplan 2, approved in October 2017, introduced the Greater Dundee Housing Market Area, part of which is in north Fife and includes the settlements of Newport-on-Tay; Wormit; Tayport; Balmerino; and Kirkton of Balmerino and the surrounding rural land. This area was previously part of the St Andrews and North East Fife HMA, and the remainder of this Housing Market Area is now renamed the St Andrews and East Fife HMA (see Figure 1.1). TAYplan 2 also introduced housing supply targets as per Scottish Planning Policy (2014). TAYplan 2 sets the housing supply target for the St Andrews and East Fife Housing Market Area at 145 housing units per annum; the Greater Dundee Housing Market Area at 40 units per annum; and the Cupar and North West Fife Housing Market Area at 110 units per annum. The base date of the Plan is 2017 and the housing supply targets, and housing delivery are measured from this base. Figure 4. assesses the contribution of 2016/2017-2021/2022 housing completions towards meeting the TAYplan 2 housing supply targets.

Figure 4.21: Meeting the TAYplan 2 Housing Supply Targets by HMA 2016/2017-2021/2022

Housing Market Area/SDP Area	Completions on Sites >4 units	Completions on Small Sites <5 units	Total Completions	Housing Supply Target	Surplus/ Shortfall (-)	% Of HST Met
	A	B	A + B	C	(A + B) - C	(A + B) ÷ C x 100
St Andrews and East Fife	625	135	760	870	-110	87%
Greater Dundee	99	20	119	240	-121	50%
Cupar and North West Fife	296	102	398	660	-262	60%
TAYplan (Fife)*	1,020	257	1,277	1,770	-493	72%

Sources: TAYplan 2 (2017); Fife Housing Land Database

*Note: Figures for TAYplan (Fife) are for information only. TAYplan 2 sets no housing supply target at this geography.

4.27 As outlined in TAYplan 2 the HLR is calculated by adding 10% to the HST.

Figure 4.22: Housing Land Requirement by TAYplan HMA 2022-2027

Housing Market Area/SDP Area	Annual HST	Surplus/ Shortfall (-)	Adjusted HST 2022-28	Adjusted Annual HST	Annual HLR	HLR 2022-27
St Andrews and East Fife	145	-110	980	163	179	895
Greater Dundee	40	-121	361	60	66	330
Cupar and North West Fife	110	-262	922	154	169	845

4.28 The first TAYplan (2012), at Policy 5: Housing, required local development plans to “allocate land which is effective or capable of becoming effective to meet the housing land requirement up to year 10 from the predicted date of adoption, ensuring a minimum of 5 years effective land supply at all times, and work towards the provision of a 7-year supply of effective housing land by 2015, to support economic growth”. TAYplan 2 removes the direction to work towards the provision of a 7-year supply of effective housing land

and reverts to the 5-year supply as per Scottish Planning Policy. Figures 4.20 to 4.22 assess the current housing land supply and determine whether it is sufficient to meet the 5-year housing supply target in each housing market area.

CHAPTER 5: HOUSING SCHEDULES

Introduction

5.1 This Chapter includes the site-specific details of all sites included in the 2020 established land supply and form the basis for the majority of the figures contained in the Housing Land Audit. All sites are sorted by Housing Market Area, Settlement (alphabetical) and Site Name (alphanumeric).

Figure 5.1: Information in Schedules

Heading	Explanation
Site Id	Unique reference number of each site.
Settlement	Name of town or village.
Site Name	Site name unique to settlement.
Developer/ Owner	Name of developer (where site is in the ownership or control of a recognised developer) or where site is not in the control of a developer the ownership is noted as “Private” in order to comply with GDPR – ownership details can be obtained from the Registers of Scotland
Site Type	Greenfield or Brownfield.
1st Audit	Year the site first appeared in the Housing Land Audit.
Tenure	Private, Affordable or Mixed Tenure
Area (ha)	All site areas are given in hectares.
LP Ref	Site reference in local development plan.
PP Date (mm/yy)	Date that planning permission was granted in month and year format. “No” if no permission granted.
Status	Planning Permission in Principle; Full Planning Permission; No Consent; or Under Construction.
Capacity	Total capacity of the site in housing units.
Completions	The number of units completed in the period 1st April 2017 to 31st March 2018. These are split by tenure in SESplan (Fife) and the relevant HMAs.
Projected Completions	The number of units expected to be completed on an annual basis over the next 5-year period. Projected completions beyond 2023 are aggregated.
Reason site is non-effective	The reason(s) why the site is judged to be non-effective.
Reason for deletion	The reason(s) why the site has been deleted from the established housing land supply.

Types of Schedules

5.2 There are 4 Schedules, namely:

- 1. Effective Housing Land Supply
 - a. SESplan
 - b. TAYplan
- 2. Non-effective Housing Land Supply
 - a. SESplan
 - b. TAYplan
- 3. Sites deleted from the Housing Land Supply
 - a. SESplan
 - b. TAYplan
- 4. Wholly completed sites
 - a. SESplan
 - b. TAYplan

5.3 The Effective Housing Land Supply, detailed in Schedule 1, consists of those sites which, in the opinion of the house building industry and/or the Council, will produce houses. This may mean that no output is shown at individual years where the site is programmed to start post 2027.

5.4 The Non-effective Housing Land Supply, detailed in Schedule 2, contains all those sites which have a preferred use of housing, but which are currently constrained or are listed as development opportunity sites in the local development plan. A reason why the site is non-effective is given. Where any identified constraint is overcome, the site will become effective and be expected to contribute to the Housing Land Supply.

5.5 It is sometimes necessary to delete sites from the Audit. Common reasons are the subdivision of large sites; the combination of 2 or more sites into a single site; the lapse of planning consent; or the development of a site for non-housing use. Reasons for deletion are given in Schedule 3.

5.6 Wholly completed sites are those sites where all houses are present on site as of 1st April 2022 and are detailed in Schedule 4
