

# Fife Council Register of Common Good Assets

Fife Council owns property that has Common Good status. Property can be Common Good if it was bought by, or gifted to, a former Burgh.

## What is Common Good?

Property can be Common Good if it was gifted to or acquired by the Burgh on or before 15 May 1975 and it meets these criteria:

- it has been used by the general public for a long time
- it was dedicated for a specific public purpose
- the title conditions ensuring public use were agreed in the original charter

There can be other factors that decide if a property is Common Good or not, such as statutory reasons for owning a property, how it was acquired or if it is held by a separate trust. Common Good status means that restrictions apply on what can be done with the property. Restrictions on leasing or selling some Common Good assets exist but these can be altered by obtaining approval from the Courts. Proceeds from leasing or selling these assets are retained in the Common Good fund.

## Common Good Register

Under the Community Empowerment (Scotland) Act 2015 and following Scottish Government Guidance, Local Authorities have a duty to publish a Common Good register and update as necessary. We have now completed the consultation process on the lists of property proposed to be included in the Fife Council Common Good Asset Register. This includes buildings, land, artwork, regalia and funds. Any representations received have been responded to and can be seen from the related pages.

## Additional Assets

If property is identified as possibly being Common Good in a former Burgh that has not previously had a Common Good Fund, we will conduct a stand alone consultation process in accordance with the legislation to establish a register in that area.

## Disposal or change of use of Common Good assets

Community groups can apply to the Council for any common good land or buildings they feel they could make better use of. They can request ownership, lease or other rights. Before making a decision on a request, the Council must carry out a consultation with the community and have regard to any representations made.

The Asset Register is a living document and will be reviewed regularly in accordance with our guidance. It will be amended if any new property is identified or if any existing property is disposed of or reclassified.

For ease of reference, the Register has been divided into the separate former Burghs

### Note:

Not all land in a former burgh owned by modern Councils is Common Good. Some of it may have been acquired by other Councils, like the former county, or district councils. However, almost all former burghs had a Common Good Fund, which consisted of land, buildings, moveable items like paintings, and cash.

The land and buildings which a burgh owned were made up of three main categories: those acquired under a statute (for example, land bought for council housing); land held on trust where a benefactor had provided for a specific trust to be administered by the fund; and Common Good property. What property now forms parts of the Common Good Fund may sometimes need research, as it may not be obvious from the titles what property was acquired for.

Kinghorn	Pettycur Harbour	The pier is Common Good property as is the car park adjacent to it. The harbour is one of those which is managed by Fife Council. Local people have expressed concern about the attitude and behaviour of some of the fishermen who occupy sheds on the pier. Prompted by the Police, Fife Council officers are currently involved in discussions with the fishermen about the creation of a management committee. About 15 yrs ago the car park area was extended to install a sewerage system - unclear if this is Common Good Land - RBKCC

This is Common Good	Added to register on conclusion of legal investigation and decision that the property should be held on Common Good.
This is Common Good	The former Bowling Green and Pavilion are being repurposed to provide Outdoor Nursery facilities within Ravenscraig Park. Although the property is located within the park, a separate asset has been registered for the Outdoor Nursery (for administrative purposes). As Ravenscraig Park is Common Good, the Outdoor Nursery asset should be added to the Common Good Register.
